## Kids Love Recess

by Ethan, Emily, and Tyler

Woodrow Wilson School loves recess. We have a lot of fun things to do on the play grounds. There is one playground for the younger kids and one for older kids. We play kickball, football, and tag. We even have a basketball court and a soccer field to use. We see kids climbing on the jungle gym and on the monkey bars. Kids also love to play on the swings. They love to be on the slides and do back-flips. Our class voted to see what the favorite activity was. The activity with the most votes was kickball. The next favorite activity was football.

## Pokemon Black And White

by Caleb, Helenea, Kawayne

There are many Pokémon games to play on video game systems. The newest ones are Pokémon Black and White version. There are two characters you can play. One is a boy and the other is a girl. They go on Pokémon journeys. You can play it on a Nintendo DS or Game Boy. Pokémon dream world is a special place for Pokémon to go on the Internet to get items and meet other Pokémon characters. Both Black and White have 156 new Pokémon in the games. The first new Pokémon is Zoroar. One of the Pokémon in the black version is Reshiram, and Zekrom is in the white version.

## Mrs. Uppleger

by Valencia, Kiarra, and Eugene

Mrs. Uppleger is a fourth grade teacher at Woodrow Wilson. She is honest with kids and adults. She likes to help people with their problems. Her favorite song is "Hit Me with Your Best Shot." One of Mrs. Uppleger's favorite snacks is pizza. She doesn't have any pets. Her favorite hobby is softball. Her favorite sweet treat is chocolate. The color she likes best is purple. Her favorite book is *James and the Giant Peach*. She loves teaching here at Woodrow Wilson. She teaches math, spelling, and reading. Her class is selling Smencils to raise money. She found out about them from her

children's school. Her favorite Smencil smell is root beer. She is in charge of ordering the Smencils.

**Mr. Bill the Custodian**  
by Kristian and Dylan

Mr. Bill is our custodian during the day. He likes the Woodrow Wilson School. He works hard. He likes being in the news. The thing he likes most about his job is seeing the kids at school. He sometimes helps kids. Mr. Bill works eight and a half hours every day. His favorite food is a cheeseburger. There are two more custodians that work at our school. All of the custodians take the trash out and help each other keep the school clean.

**Mrs. Brock and Art Class**  
by Meayla, David, and Kristian

Do you love making and seeing art? We do! Our art teacher, Mrs. Brock's favorite artists are Keith Haring and Chuck Close. One hard thing about her job is keeping track of the projects for all of the classes. She thinks if she makes art class fun, the students will learn without knowing that they are learning. She likes seeing computer art. Computer art is when you design art on the computer. We like having Mrs. Brock as our art teacher.

Art Photo-Chuck Haring Artwork from his website

We like going to art class for many reasons. Kristian likes art because it's fun to do.

Dylan says people feel happy about their work. Mrs. Brock says some people have art as a passion. We do!

**Learning Recorders**  
by Shanna, Sierra, and Dakota

In music we are learning to play recorders. We are trying to keep the beat. We practice the notes A, B, C and G. To play the A note, cover the hole on the bottom and the first two holes on the top. If you want to know more go to [www.musick8kids.com](http://www.musick8kids.com). Then click on fun stuff and go to the recorder fingering chart.

We have to bring our recorders every day. If we don't, we can't play them. If we bring our recorders, then we can keep the beat and learn new notes. Mrs. Trudeau, our music teacher, gives out stickers to students who are playing well. We are very excited about the newest note, F that we will soon be learning.
